DSS: No

Martin:

You did not discuss the disclosure issue with me (or if you did, I apologize, but I do not recollect the details).

Could you perhaps have discussed it with Loreen instead?

-Valerie

The study execution contract is waiting on the protocol development contract. As soon as we can, we need to let them know about the disclosure issue - it is the last item to resolve in finalizing this contract.

Sorry,

Bristow,

For the late response, however I just came back from Europe. I discussed the issue with Valerie King. Unfortunately, she is out of office today. The project will face a significant delay due the fact that we do not have even a contract on the protocol. What is the situation like of the contract on execution of the study?

Regards,

Martin

Martin,

Have you responded to Amy regarding the disclosure issue? If not, can you let me know what feedback to provide her so that we can wrap this up? Thanks.

Bristow

Bristow:

We will do so. Please let me know where WSA stands on the disclosure question at your earliest convenience.

Thanks.

Amy -

Risk Management accepts the insurance information provided by Dr. Winkelman. Please have the agreement revised accordingly. Thanks.
Bristow

Right. We need the ok from Risk Management before we confirm anything in the agreement.

I look forward to hearing from you re: the disclose question and the risk management's advice on the insurance.

Amy,

Loreen and/or I will get back to you next week re: the disclosure question. I noticed that there is still a note in the blackline that you are waiting for insurance information. I provided Winkelman's information to Jessica yesterday afternoon. We have an e-mail into Risk Management regarding their input.
Bristow

Loreen:

Attached please find the clean and blackline versions of the protocol development agreement with the University of Heidelberg and Dr. Winkelmann, revised to reflect our conversations with Dr. Winkelmann last Friday. There is one outstanding question for which I need WSA's input. In section 11.1 we have revised it to reflect that the parties can disclose a minimal amount of information about the research without gaining the permission of the other party. I just want to confirm that WSA is comfortable with Dr. Winkelmann and the University being able to disclose to anyone that he has developed the protocol for PM and disclose the subject matter of the protocol and what he has been paid to develop it.

Thanks.

Amy,

Attached are clean and blacklined versions of the Protocol Development Agreement between PM USA and the University of Heidelberg and Dr. Winkelmann incorporating the comments that you and I discussed earlier this afternoon. The blacklined version marks all of the changes that have been made to the Agreement since the University saw a draft. Please let me know if you have any questions or require further revisions.

blackline: (See attached file: DC_1078194_1.DOC)

clean: (See attached file: DC_1077191_4.DOC)
